

Our mission at DSNetwork is to educate, support and advocate for those in our community touched by Down syndrome. DSNetwork achieves this goal through an open, supportive and collaborative network that connects individuals and families with needed resources and information.

At DSNetwork, we value our interns and provide opportunities to make an impact by lending their skills to a small non-profit team working on support, education and advocacy for all those touched by Down syndrome across the state.

We accept interns for the spring and fall semesters, as well as during the summer months. Interns are provided with hands-on experience and enhanced learning to accelerate their development and future career growth. Internships are non-paid, but offer flexibility, allow work on meaningful projects and provide opportunities to engage with community leaders throughout the state.

DSNetwork intern applicants should be an Arizona-based college student with a desire to learn and work on a small non-profit team.

Please send your resume and cover letter to info@dsnetworkaz.org.
